Abdenour Soubih is a Master's student in Computer Science and Engineering at Sungkyunkwan University (SKKU), South Korea, focusing on security in machine learning, especially federated learning. Holds a Master's and Bachelor's degree in Computer Science from Algerian universities, with prior work in IoT and web-based systems.

Research interests include IoT, wireless sensor networks, and privacy-preserving AI. Experience spans both academia and industry, with contributions to international projects like WaterMed4.0, and work involving IoT platforms, mobile app development, and network analysis.

Fluent in Arabic, French, and English, with strong technical skills and active involvement in research on secure and distributed systems.

Education

Sungkyunkwan University (SKKU) – Master's Student in Computer Science and Engineering
2024 – Present

University of Oran1 Ahmed Ben Bella – Master's Degree in Computer Science
2018 – 2020

UHBC University – Bachelor's Degree in Computer Systems
2015 – 2018
